BMMB 852

Applied Bioinformatics

Course Information

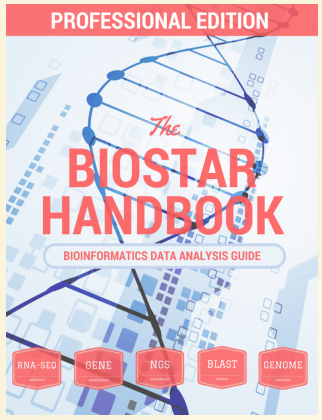

Location

116 Osmond Building
Mo/We 1:25- 2:15pm

Office hours

- Stay after class for questions/troubleshooting
- T/Th 2pm-3pm, W237 Millennium Science Complex

Course Materials

- Biostar Handbook
- http://www.biostarhandbook.com
- Learn Bioinformatics in 100 hours

Grading and Assignments

Final grade determined by your completion rate on assignments.

There are no exams but lots continuous practice.

Distributed and submitted via Canvas.

One assignment per week (15 total)

Multiple stages for each assignment that are connected to the lecture.

Assignments are due the next week.

Submission

Homework usually fits on one or two sheets of paper.

Show the commands and their output.

Note: You can copy paste from the terminal!

Use text files as much as possible.

No need to use Word or PDF!

Learn how to use simple text format to structure and get your point across.

More on assignments

Delays/late assignments. Occasionally fine. Don't cheat yourself. You can only learn via continuos practice.

For homework you may work in teams – but everyone needs to perform the actions themselves.

Don’t copy paste someone else’s code – it is very easy to tell when you do so.
